Drive the difference.
Dear Reader,

Mobility has always meant more than simply getting from A to B. In recent years, however, people’s development toward greater awareness – including in their choice of means of transport – has accelerated massively. Climate protection and the sparing use of resources as well as personal health and mental balance are more important to many than ever before.

No wonder the powerful e-bikes from Stromer are in such high demand. Because we have long believed that we can increasingly do without the car. Our strategy is clear: We build perfect Speed Pedelecs that offer so much riding joy, efficiency and quality of life that you don’t miss the supposed comfort of your car.

Take pleasure in zooming past the daily gridlock instead of being stuck in it in your soft car seat. With a Stromer, you’ll look forward to your ride to work every day and enjoy every turn. Thanks to the latest ABS technology, we ensure even more safety in our new models.

Fast e-bikes from Stromer make new mobility possible, which pays off for everyone in the long run: for the environment, for our traffic system, for your health. Take a test ride on your Stromer at one of our trading partners and discover the difference! We look forward to welcoming you into our community.

Jakob Lukisch,
CEO of myStromer AG
The nimble e-bike for every day.

A Stromer is made for people who have much to accomplish and who also enjoy being on the go themselves. Instead of spending precious time in traffic, they take advantage of their daily commutes by using them as a gentle workout, for stress relief and sensational joy of riding – bringing more quality of life all round. Thanks to fully integrated ABS in the Stromer premium models, your safety is also provided for without compromising on design. 100,000 bike enthusiasts worldwide have already caught the Stromer bug and between them clock up over 4.4 million miles per month*. Proof enough for us – Stromer is the perfect commuter bike!

The Swiss company stands for contemporary mobility with inspiring dynamics and design. With renowned Swiss innovation and engineering, we are always striving for the greatest precision, quality, high-value and efficiency.

We not only have great enthusiasm for our products, we also have just as much respect for the environment. If more people regularly ride Stromer bikes and leave the car in the garage, the better it will be for us all in the end.

Swiss standards of efficiency and quality.

In an exhilarating 2.9 seconds from 0 to 28 mph
Ideal for daily commutes up to 22 miles or even more (range up to 110 miles)
Arrive without breaking into a sweat – even for the less athletic
Highest riding safety thanks to special components
Enjoyable whatever your riding style – whether laid-back or sporty
Better performance at your job
More relaxation after clocking out

* Average figure for 2021 for all Stromer bikes with OMNI connectivity.

«You have to experience this riding feel for yourself!»

Perfect for people and the environment.

What makes a ride on a Stromer so special? We think the difference comes down to its unique blend of quality, efficiency, safety and smartness. Something we have achieved by bringing together our entire expertise – from design and assembly to sales – in one place at our Stromer campus in the Swiss town of Oberwangen, near Bern.

At Stromer, we attach the greatest importance to the consistency and safety of the individual components. We are thus constantly working to make each part better. An example of this is the new ABS in the ST5 and optionally in the ST3 with Pinion gear shifting, or the belt drive in the ST2 and optionally in the ST3. This has further increased the riding safety and durability of the models.

However, the unique riding experience always comes first for us. We are convinced: Every Stromer is more than the sum of its parts. The best thing is to feel it yourself!
We give shape to riding fun. The multiple award-winning, integrated design combines aesthetics and technology to perfection: tidy cockpit, on-board computer integrated in the top tube, sporty, striking frame silhouette, internal cable routing and integrated battery, and virtually invisible motor in the rear axle. Stromer design is uncompromisingly joined up – for sensational roadholding and amazing side glances.

We give shape to riding fun. The multiple award-winning, integrated design combines aesthetics and technology to perfection: tidy cockpit, on-board computer integrated in the top tube, sporty, striking frame silhouette, internal cable routing and integrated battery, and virtually invisible motor in the rear axle. Stromer design is uncompromisingly joined up – for sensational roadholding and amazing side glances.

Connectivity

Connected while on the go with Stromer OMNI connect. Select the handling characteristics and motor output according to your individual requirements and use smart functions such as over-the-air updates, automatic locking, keyless battery ejection and triple anti-theft protection with GPS localization. The user-friendly, free app and the on-board computer make the daily commute even more convenient – and you and your bike inseparable. More about this on p. 34.

Anti-theft protection
Locking function, alarm and GPS localization
User-friendly app
Statistics and individual motor settings
Mobile phone network | Bluetooth
Smartlock and over-the-air updates

Range

Four high-quality, extremely long-lasting batteries. Also, a regenerative brake maximizes the range. The result is plenty of energy to take you a distance of up to 110 miles on a daily basis. Depending on what pedal assist level you choose – and how far you want to go in that mode. The batteries are compatible with all current models and can be charged quickly at every socket – after removal at the press of a button or directly in the bike.

Long-life batteries
Range of up to 110 miles
Regenerative braking
For additional range

Power

Most efficient drive for Speed Pedelecs. The legendary rear-wheel motor of the Stromer lets you ride quietly, dynamically and efficiently at speeds of up to 28 mph. And it delivers its power to the precise point where it is needed – straight to the hub. That gives it many advantages over a mid-mounted motor: less wear on the drive and brake, in return for more propulsion, more dynamism, more safety, more range, more elegance – and above all, more riding fun.

Powerful motor assistance
Up to 28 mph and 650 W | 48 Nm
Rear-wheel drive
Dynamic, powerful, quiet and efficient
Low maintenance effort
Low stress on the drive
Stromer’s premium models are available with a fully integrated anti-lock braking system. The electronically controlled braking system from Blubrake ensures that even when the brakes are fully applied, the front wheel of the Stromer does not lock up and the rear wheel does not lift off the ground. The powerful brake activation of the 4-piston brake from TRP is precisely tuned to the motor output. This means that even difficult road or traffic situations can be handled safely. Controlled braking maneuvers are possible even on slippery surfaces, and the Stromer is effectively protected against rollover.

The ABS is fitted as standard in the Stromer ST5 ABS and is optionally available in the Stromer ST3 with a Pinion gearbox. As the first e-bike up to 28 mph with a fully integrated anti-lock braking system, Stromer thus brings a true global innovation to the market.

New – fully integrated anti-lock braking system.

Stromer’s premium models are available with a fully integrated anti-lock braking system. The electronically controlled braking system from Blubrake ensures that even when the brakes are fully applied, the front wheel of the Stromer does not lock up and the rear wheel does not lift off the ground. The powerful brake activation of the 4-piston brake from TRP is precisely tuned to the motor output. This means that even difficult road or traffic situations can be handled safely. Controlled braking maneuvers are possible even on slippery surfaces, and the Stromer is effectively protected against rollover.

The ABS is fitted as standard in the Stromer ST5 ABS and is optionally available in the Stromer ST3 with a Pinion gearbox. As the first e-bike up to 28 mph with a fully integrated anti-lock braking system, Stromer thus brings a true global innovation to the market.

More driving pleasure, safely.

The fast e-bikes from Stromer are made for the road and city traffic. For this reason, we have equipped the e-bikes with high-quality components for maximum riding safety. They enable safe handling on any terrain and ensure optimum balance, braking power, grip and visibility at all times.

With tires developed specifically for us from Pirelli for maximum road grip, a low center of gravity for ideal roadholding and extremely bright LED headlight, your Stromer remains in control in any weather.
The ST5 is our unsurpassed flagship: exclusive high-end components such as ABS and maximally integrated design for the highest performance and excellent riding dynamics.

The executive among the Speed Pedelecs.
The highlights of the ST5.

- Incomparable Stromer riding fun: powerful, dynamic and silent
- Most powerful rear-wheel motor with Sport mode with assistance up to **28 mph** (650 W | 48 Nm)
- High-end components from the brakes and the electronic shifting system to the headlights and the tires
- Range: up to **110 miles**
- With fully integrated ABS (front) for even more safety » see p. 10
- Large volume 27.5” tires, perfectly adapted to commuting on the road (option: additional suspension)
- Full connectivity with over-the-air updates, free app, GPS localization, Smartlock, individual motor settings, statistics and more
- Fully integrated design – award-winning technology and design
- Available in Granite Gray with sports frame in M < 178 cm | L 175 – 188 cm | XL > 185 cm

Granite Gray
Granite Gray with all options.
Elegant Commuting

Purist efficiency straight out of the future.

The ST3 is an extraordinarily dynamic S-Pedelec that is ideal for daily use. The customizable riding position and the smart extras ensure comfortable, stylish and efficient mobility in commuter traffic. Now also available as an option with Pinion gearbox, Gates carbon belt drive and ABS.

«If the heroes of a science fiction movie were to ride a bike, this high-tech bike would surely be the first choice.»

GQ
The highlights of the ST3.

- Incomparable Stromer riding fun: powerful, dynamic and silent
- Very powerful rear-wheel motor with assistance up to 28 mph (600 W and 44 Nm)
- Range up to 90 miles (can be optionally upgraded to 110 miles)
- Now available with the option of Pinion gearbox and Gates carbon belt drive (incl. ABS) » see p. 22
- Customizable, comfortable riding position
- Large-volume 27.5" tires, perfectly adapted to commuting on the road (option: additional suspension)
- Full connectivity with over-the-air updates, free app, GPS localization, Smartlock, individual motor settings, statistics and more
- Award winning, integrated design
- Available in the colors: Deep Black, Cool White
- Also available in a limited special edition with special finish, greater range and Stromer Antwerp Double Bag » see p. 32
- Frame: Sports frame in M < 178 cm | L 175 – 188 cm | XL > 185 cm; comfort frame in M < 178 cm in Cool White

Deep Black, sports frame with all options
Cool White, comfort frame

Cool White, comfort frame
Optional – ST3 with Pinion gearbox and ABS.

From May 2022, the Stromer ST3 will be available with an optional Pinion gearbox, belt drive and fully integrated anti-lock braking system (ABS). Pinion gearboxes use technology from the automotive sector and, as a closed system, are particularly robust and virtually maintenance-free.

- The ST3 option with 9-speed shifting system C1.9 XR from Pinion (range: 568 %) and with carbon belt drive from Gates – making it quiet, virtually maintenance-free and durable
- Additionally available with fully integrated anti-lock braking system (ABS), resulting in increased safety during difficult braking maneuvers » see p. 10
- Customizable, comfortable riding position
- Frame geometry and basic equipment like with the standard model
- Colors: Deep Black and Cool White – available from July 2022
- Frame: Sports frame in M < 178 cm | L 175 – 188 cm | XL > 185 cm; comfort frame in M < 178 cm only in Cool White

**ST3 – Launch Edition:**
- Most powerful battery with range of up to 110 miles
- For more safety, also optionally available with ABS (front) » see p. 10
- Imperial red finish
- Available from May 2023 with sports frame in M < 178 cm | L 175 – 188 cm | XL > 185 cm
- Other add-ons and options like the standard model
Built to move forward.

The efficient all-rounder among the fully connected S-Pedelecs. Built to move forward. Powerful, customizable, with a new belt drive – making it especially low-maintenance and durable for more pleasure in commuting.

«A true car replacement that beats a Tesla Model 3.»
The Verge
The highlights of the ST2.

• Incomparable Stromer riding fun: powerful, dynamic and silent
• Powerful rear-wheel motor with assistance up to 28 mph (570 W | 40 Nm)
• Range up to 75 miles (can be optionally upgraded to 110 miles)
• With Gates carbon belt drive and 5-speed hub gear from Sturmey Archer – particularly low maintenance
• Customizable, comfortable riding position
• Large-volume 27.5” tires, perfectly adapted to commuting on the road (option: additional suspension)
• Full connectivity with over-the-air updates, free app, GPS localization, Smartlock, individual motor settings, statistics and more
• Semi-integrated design (battery in downtube, display in top tube, etc.)
• Available in the colors: Royal Blue, Dark Gray
• Also available in a limited special edition with special finish, suspension seatpost, greater range and Stromer Copenhagen Basket » see p. 33
• Frame: Sports frame in M < 178 cm | L 175 – 188 cm; comfort frame in M < 178 cm
The top-class beginner S-Pedelec with elegant design and the reliable, powerful drive for modern mobility and maximum performance. Now with Daylight.

The all-rounder for everyday use.

«Pedal Porsche for commuters – Stromer ST1 takes cycling into another dimension.»
Frankfurter Allgemeine Zeitung
The highlights of the ST1.

- Incomparable Stromer riding fun: powerful, dynamic and silent
- Powerful rear-wheel motor with assistance up to 28 mph (550 W | 35 Nm)
- Range up to 55 miles (can be optionally upgraded to 110 miles)
- Customizable, comfortable riding position
- Large-volume 27.5” tires, perfectly adapted to commuting on the road (option: additional suspension)
- Connectivity via Bluetooth for Smartlock, individual motor settings, statistics and much more (optional: OMNI upgrade for full connectivity and GPS localization)
- Semi-integrated design (battery in downtube, display in top tube, etc.)
- Now with Daylight (LED in head tube)
- Colors: Deep Petrol, Dark Gray and Light Gray
- Also available as a limited special edition with maximum range and Stromer Antwerp Single Bag » see p. 33
- Frame: Sports frame in M < 178 cm | L 175 – 188 cm; comfort frame in M < 178 cm
- ST1 with Daylight available from April 2022

Limited and wildly popular – the Stromer special editions.

Stromer regularly releases exclusive special editions that are a limited series and are equipped with coveted extras. The following special models are currently available – only as long as stocks last.

ST3 – Limited Edition:
• Most powerful battery with range of up to 110 miles
• With suspension seatpost
• Practical carrier bag, Stromer Antwerp Double Bag 2 x 20 l
• San Marino Blue finish
• Available from November 2021 with sports frame in M < 178 cm | L 175 – 188 cm | XL > 185 cm
• Otherwise equipped like the standard model » see p. 21

ST2 – Special Edition:
• Powerful battery with range of up to 75 miles
• With suspension seatpost, optionally also available with suspension fork
• Practical Stromer Copenhagen Basket 24 l
• Ivory Cream finish
• Available from December 2021 with comfort frame in M < 178 cm
• Otherwise equipped like the standard model » See p. 26

ST1 – Special Edition:
• Most powerful battery with range of up to 110 miles
• Practical carrier bag, Stromer Antwerp Single Bag 20 l
• Deep Petrol finish
• Available from December 2021 with sports frame in M < 178 cm | L 175 – 188 cm
• Otherwise equipped like the standard model » See p. 31
Smart connectivity – Stromer OMNI connect.

Our current Stromer models are fitted with sophisticated digital technologies. These give you seamless connectivity with your Stromer (see summary on right).

The following functions of the cloud-based platform Stromer OMNI connect are available to you via the Stromer OMNI app:

**Triple anti-theft protection** – your Stromer has triple protection in locked mode:

1. **Electronic motor locking**: Your Stromer cannot be ridden without unlocking it via the app or entering the PIN on the display.
2. **Warning message thanks to mobile communications technology**: As soon as your Stromer is moved while in locked mode, you receive a text message or an email. The bike’s flashers and horn are activated.
3. **GPS localization**: You can locate your Stromer at any time via GPS.

**Smartlock** – automatic locking and unlocking of the bike via Bluetooth.

**Keyless** – battery ejection at the push of a button.

**Individual motor settings** – you can use OMNI to adjust the behavior of your motor, for example to select an assistance mode or regulate the pedal and brake sensors.

**Remote services and updates** – information about your Stromer’s current status, such as battery charge level, battery temperature and motor temperature, is available whenever you want it – including for your specialist dealer, to allow remote maintenance. Software updates are performed conveniently over the air.

**Statistics** – OMNI presents you with all the performance data, such as the mileage (total, current trip, current month, past year, etc.), the performance history (over the week, month, year) or the number of days ridden.

The Stromer OMNI app – the specially developed app can also function as your digital vehicle key. As you approach your Stromer, it is unlocked automatically. As you move away from it again, the clever, integrated anti-theft protection is activated immediately. The result is carefree mobility all the time, as you always know your Stromer’s location and status.

And all data for your Stromer is permanently ready to hand. Take a look at your vehicle statistics, configure your Stromer’s handling characteristics, tune your vehicle to your personal preferences or check up on the service entries made by your specialist dealers.

The myStromer app is available for iOS (version 7.0 or higher) and Android (version 4.1 or higher) smartphones.

* New: Owners of an ST1 (with Daylight – from October 2021) can enable the connectivity themselves in the OMNI BT app for an additional charge.
* Upgrade options p. 46

### Perfect for you – the Stromer online configurator.

Why not configure your ideal model yourself? The Stromer online configurator neatly displays options available as a factory option or for retrofitting, such as paint finish, frame or equipment version.

If you aren’t yet sure which model is right for you, the Stromer BikeFinder will also help you decide. Simply answer a few questions about your mobility requirements to find your perfect Stromer in three easy steps.

You already know what you want? Then simply configure your dream model at your nearest Stromer dealer and have it conveniently delivered to your home.
Quality pledge – Stromer is synonymous with supreme quality, durability and functionality. We provide a two-year warranty on all models. On frames: 10 years. On batteries: 75% of capacity within 2 years. For all bikes (from 2018 model year) we offer an extended warranty that can be extended by a further year on a rolling basis.

Warranty provisions:
