

Connected while on the go: Connectivity with Stromer OMNI connect.

All Stromer bikes are equipped with the cloud-based platform OMNI connect (see overview on right). These are the OMNI functions that you can use via an app or the touchscreen of your Stromer:

Triple anti-theft protection – your Stromer has triple protection in locked mode:

- 1. Electronic motor locking:** Your Stromer cannot be ridden without unlocking it via the app or entering the PIN on the display.
- 2. Warning message thanks to 3G technology:** As soon as your Stromer is moved while in locked mode, you receive a text message or an email.
- 3. GPS localization:** You can locate your Stromer at any time via GPS.

Not available on the ST1.

Smartlock – automatic locking and unlocking of the bike via Bluetooth. Not available on the ST1.

Keyless – keyless battery ejection at the press of a button. Not available on the ST1 X.

Individual motor settings – you can use OMNI to adjust the behavior of your motor, for example to select a support mode or regulate the pedal and brake sensors.

Remote services and updates – you are always informed about the current status of your Stromer – and your specialist dealer is too. For example, about: battery charge level, battery temperature, motor temperature, remote maintenance by the specialist dealer and automatic updates with new OMNI functions “over the air”. Limited availability on the ST1.

Statistics – OMNI presents you with all the performance data, such as the mileage (total, current trip, current month, past year, etc.), the performance history (over the week, month, year) or the number of days ridden. Not available on the ST1.

○ reduced availability

Other icons explained briefly:

Support modes – all Stromer bikes have 3 support modes that boost your muscle strength up to a speed of 45 km/h. The ST5 is additionally equipped with a Sport mode that injects additional power at the press of a button.

3G – thanks to 3G technology, OMNI has practical functions such as GPS localization, warning message in the event of theft or activation of anti-theft mode. Not available on the ST1.

Bluetooth – all current Stromer models can be connected to your smartphone via Bluetooth.

GPS localization – all bikes with OMNI Interface C can be localized via GPS.
